Topics Discussed:

In our recent meeting, we reviewed system requirements once again and we made sure that the ERD diagram was correct, because the class diagram would be based on the ERD. Each and everyone of us revised the work of last week and we fixed it if we had any errors or added if any work was missing for the sequence diagrams. Based on the sequence diagram we divided the work, so every member would make the collaboration diagrams based on the sequence diagram.

Decisions Made:

Deadline made for the completion of the weekly task by each member on Thursday.

Meeting Report to be done by Klea.

We thought that each group member should follow the assignment of duties of the week before, so each member creates the sequence and collaboration diagrams for their assigned system requirements.

A group call to be made for next week after we know what we should do.

The class diagram would be made by Keit Nika, Klea Faqolli, Nidia Fino, Sara Onjea.
